The image displays a sequence of four screenshots from a tablet interface, illustrating the account creation process. The screenshots are numbered 1 through 4 in red.

- Screenshot 1:** Shows the top navigation bar with 'log' and 'Contact Us'. Below this, there are two buttons: 'Sign in' and 'Sign up'. The 'Sign up' button is highlighted with a red box.
- Screenshot 2:** Shows the 'Create a new account' screen. It features a text input field containing 'jc3@candid.com', a password field with asterisks, and a CAPTCHA verification step with a green checkmark and the text 'I'm not a robot'. Below the CAPTCHA is a 'Create account' button.
- Screenshot 3:** Shows the 'Business Information' screen. It contains several input fields for 'First Name', 'Last Name', 'Business Name', 'Business Phone', 'Business Website', 'Address', 'City', 'State', and 'Zip Code'. There is also a checkbox for 'Advanced Contact Info' and a 'Continue' button at the bottom.
- Screenshot 4:** Shows the 'Create a new account' screen again, similar to Screenshot 2, but with a 'Sign in' link at the bottom for users who already have an account.

- Opening an account can be done at any time
- The verification email can sometimes take a few minutes to arrive
- Your “Business Name” will be visible on retail and marketing content
- Click the drop down in the top right of nowcandid.com after sign in to edit and review account info

Resources Events FAQs

**Review Our Equipment Recommendations & Training**  
Virtually any Canon or Nikon will work, but we recommend the Nikon D7500. You will also need a speedlight Nikon SB-5000. We recommend a Microsoft Surface Go 2 with LTE to upload images as they are taking training guide for tips and best practices.

The screenshot shows the top navigation bar of the NowCandid website with links for 'Events', 'FAQs', 'Blog', 'Contact Us', and a user profile 'Jack'. Below the navigation is a dark blue banner with an 'Edit' button. Further down, there is a 'Download Software' button. At the bottom, a 'Software Download' section features an illustration of a camera and a download icon, with a 'Download now' button.

The screenshot shows the Microsoft Store app page for 'NowCandid: Photo Sales Made Easy' by Candid Color Systems, Inc. The page displays a 5.0 star rating and a 'Get in Store app' button.

The screenshot shows the Microsoft Store app page for 'NowCandid: Photo Sales Made...' by Candid Color Systems, Inc. The page displays a 5.0 star rating, 'Privacy & terms' and 'More details' links, an ESRB rating of 'EVERYONE', and an 'Install' button.

The screenshot shows the Windows taskbar with the NowCandid app icon. A context menu is open over the icon, showing options to 'Pin to taskbar' and 'Close window'.

- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

The screenshot shows a dark blue interface for creating an event. A red rectangular box highlights the top section, which includes the 'Event Name' field with a question mark icon and a placeholder 'Enter event name', and the 'Start Date/Time (CT)' field with a calendar icon. Below this is the 'Select Program' section with five buttons: 'QUIC PICS', 'PARTY PICS NOW!', 'SPORTS PICS NOW!', 'GRAD PICS NOW!', and 'PORTRAITS NOW!'. At the bottom, there is a 'Title Option' dropdown menu currently set to 'No Title' and a 'Continue' button.

- Event Name is shown on marketing texts & emails
- Start time is recommended to be a few hours before the event
- Start date should be the day of the event for optimal marketing campaign timing
- End time defaults to 80 hours after the start time
- Facial recognition ends when event does (new images won't match after it ends)

# Program Selection (Part 1 / 6)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

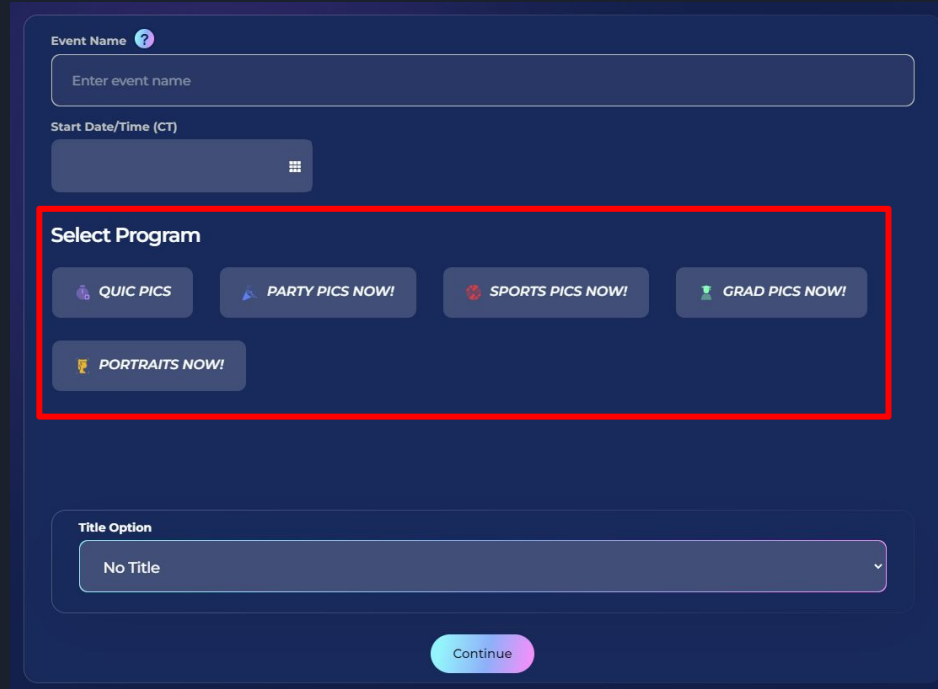

- Event Name & Date
- Program Selection 1/6
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

The screenshot shows a dark blue interface for creating an event. At the top, there is a text input field for 'Event Name' with a question mark icon and a placeholder 'Enter event name'. Below it is a date/time selector for 'Start Date/Time (CT)'. The main section is titled 'Select Program' and is highlighted with a red border. It contains five buttons: 'QUIC PICS' (with a camera icon), 'PARTY PICS NOW!' (with a party hat icon), 'SPORTS PICS NOW!' (with a soccer ball icon), 'GRAD PICS NOW!' (with a graduation cap icon), and 'PORTRAITS NOW!' (with a portrait icon). Below the buttons is a 'Title Option' dropdown menu with 'No Title' selected. At the bottom center is a 'Continue' button.

- Party Pics *Now!*
- Sports Pics *Now!*
- Grad Pics *Now!*
- Portraits *Now!*
- QuicPics

# Program Selection (Part 2 / 6)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection 2/6
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

**Party Pics<sup>®</sup> Now!**

- Recommended Workflow:
  - Tap-A-Face
- Uses social-oriented products, pricing, and marketing
- Best for:
  - Proms
  - Parties
  - Galas
  - And beyond!

# Program Selection (Part 3 / 6)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection 3/6
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

**Sports Pics** *New!*

- Recommended Workflow:
  - Scanner Identification
- Uses sports-oriented products, prices & marketing
- Has “team photo” feature
  - Puts the image in every personal gallery
  - That photo goes on certain products

# Program Selection (Part 4 / 6)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- **Program Selection 4/6**
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

**Grad Pics Now!**

- Recommended Workflow:
  - Selfie Registration
- Uses graduation-oriented products, prices & marketing
- Best for:
  - Graduations
  - Ring ceremonies
  - Robing ceremonies
  - Similar events

# Program Selection (Part 5 / 6)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- **Program Selection 5/6**
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

## Portraits Now!

- Available Workflows:
  - Manual Entry
  - Scanner Identification
- Uses portraits-oriented products, prices & marketing
- Does not use facial recognition, positively IDs data & images
- No “all images” gallery, only private personal galleries

# Program Selection (Part 6 / 6)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- **Program Selection 6/6**
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

## QuicPics®

- Recommended Workflow:
  - Tap-A-Face
- Get paid upfront by an event organizer or sponsor, and then use QuicPics to text images to guests *during* the event
- Charges \$0.31 per upload
  - *Not* per download
- Image Graphic Titles are applied to texted images

# Price Level Selection

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

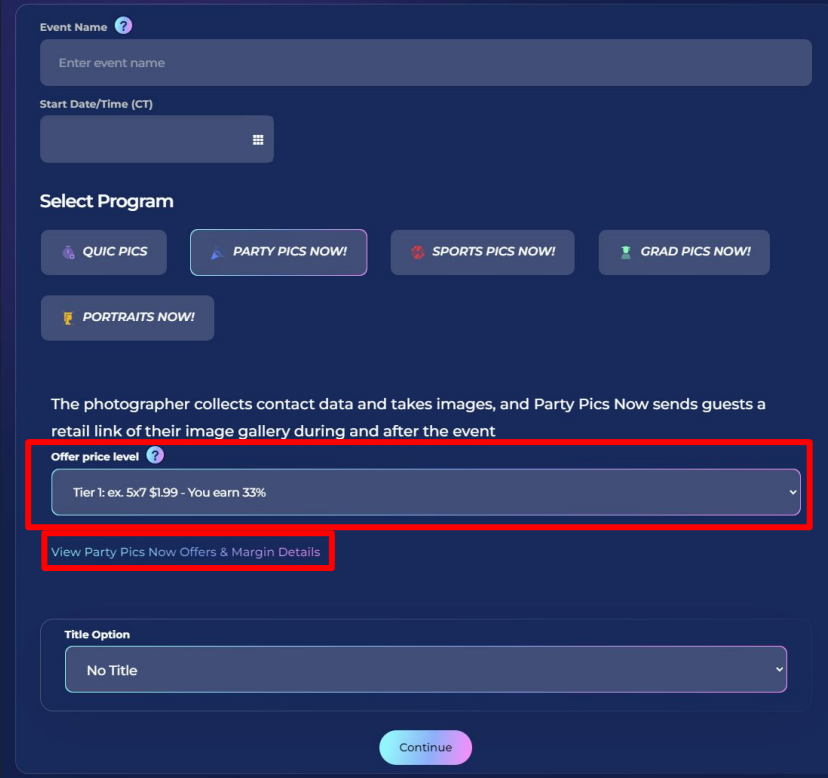

- Event Name & Date
- Program Selection
- **Price Level Selection**
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

The screenshot shows a dark blue interface for event setup. At the top, there's a section for 'Event Name' with a text input field. Below that is 'Start Date/Time (CT)' with a date picker. The 'Select Program' section features five buttons: 'QUIC PICS', 'PARTY PICS NOW!', 'SPORTS PICS NOW!', 'GRAD PICS NOW!', and 'PORTRAITS NOW!'. A descriptive paragraph follows: 'The photographer collects contact data and takes images, and Party Pics Now sends guests a retail link of their image gallery during and after the event'. The 'Offer price level' section is highlighted with a red box and contains a dropdown menu showing 'Tier 1: ex. 5x7 \$1.99 - You earn 33%'. Below this is a link 'View Party Pics Now Offers & Margin Details', also highlighted with a red box. At the bottom, there's a 'Title Option' dropdown menu with 'No Title' selected, and a 'Continue' button.

- Select the Pricing / Commission hyperlink to see pricing level details
- Product prices increase as the Price Level increases
- Prices increase after Week 1/2/3 corresponding with the marketing campaign content
- The Price Level Margin applies to all physical products sold
- All digital-download-only products have a static 85% margin across all price levels
- Photographer earns X% of all sales & shipping for the event

# Image Title Selection (Part 1 / 3)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection
- Price Level Selection
- **Image Title Selection 1/3**

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

The screenshot shows a dark blue interface for creating an event. At the top, there is a section for 'Event Name' with a text input field containing 'Enter event name'. Below that is a 'Start Date/Time (CT)' section with a date and time picker. The main section is titled 'Select Program' and contains five buttons: 'QUIC PICS', 'PARTY PICS NOW!', 'SPORTS PICS NOW!', 'GRAD PICS NOW!', and 'PORTRAITS NOW!'. Below the buttons, there is a paragraph of text: 'The photographer collects contact data and takes images, and Party Pics Now sends guests a retail link of their image gallery during and after the event'. Underneath is an 'Offer price level' section with a dropdown menu showing 'Tier 1: ex. 5x7 \$1.99 - You earn 33%'. At the bottom, there is a 'Title Option' section with a dropdown menu showing 'No Title'. A red box highlights the 'Title Option' section. At the very bottom, there is a 'Continue' button.

## No Title

- Examples on the retail site also do not use graphics
- Customers can add text & effects before purchasing
- When using QuicPics, images are texted out to the guests without a title

# Image Title Selection (Part 2 / 3)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection
- Price Level Selection
- **Image Title Selection 2/3**

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

The screenshot shows a 'Title Option' interface with a dropdown menu set to 'Simple Text Title'. Below the dropdown are three input fields labeled 'Line 1', 'Line 2', and 'Line 3'. There is also a 'White Title Box' dropdown menu. At the bottom, there are two 'Lab Default' dropdown menus, each with a 'view sample' button next to it.

## Text Title

- Customers can change the text on the retail site before purchasing (*but not when using QuicPics*)
- White Title Box & Drop Shadow styles available
- Many different fonts & colors to choose from
- Example renders can be easily downloaded
- Text can be changed *during* the event if needed and will be applied to new image uploads

# Image Title Selection (Part 3 / 3)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection
- Price Level Selection
- **Image Title Selection 3/3**

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

**Title Option**

Custom Graphic Title

Graphic Overlay Image for titles  
Choose file or drag and drop the image  
(File type: JPEG or PNG | Recommended dimension: 63)

## Graphic Title

- Customers can purchase image downloads with or without graphic titles
- Graphic titles can be PNG files and allow for transparency
- We recommend 3000x500 or 2500x500 (pixels) for graphic title designs
- Retail site renders the image with the event graphic before adding it to their cart
- Graphic can be changed *during* the event if needed and will be applied to new image uploads

## 3. Covering An Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

# Tap-A-Face

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

- Tablet required
- Cell phone numbers and/or email addresses can be collected after tapping a face
- Images are live uploaded during the event via tablet and added to a personal gallery that is texted to the guest
- Facial recognition means you only need to tap each guest's face once at an event (*even if they already tapped in info on another tablet at the event*)
- Display modes for both solo photography and photography with an assistant

# Selfie Registration

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- **Selfie Registration**
- Scanner Identification
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

- Tablet optional, but recommended
- A generic event QR code is generated during event creation when “enable selfie registration” is selected, right click it to save to device
- QR code can be scanned by subjects before, during, or after (*within 80 hours*) the event
- QR code directs to a Selfie Registration form where subjects input info & upload a selfie
- Facial recognition will match event images to each subject’s selfie, placing it in their gallery
- Images can be live uploaded during the event via tablet or manually uploaded after the event via [nowcandid.com](http://nowcandid.com)
- Collects name, cell, & email for the subject as well as their friends and family (*if they choose to include them*)

# Scanner Identification

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- **Scanner Identification**
- Roster & Face Import

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

- Tablet & Scanner required
- Cell phone numbers and email addresses are collected when each subject scans a unique QR code with their phone
- Subject's QR code is scanned by the photographer with the scanner before taking photos
- Images are live uploaded during the event via tablet and added to a personal gallery that is texted to the subject
- After the event, the QR code will direct to the associated personal gallery

# Roster & Face Import (*Live, but hidden!*)

## 1. Getting Started

- Creating an account
- Equipment
- Setting up the tablet

## 2. Creating An Event

- Event Name & Date
- Program Selection
- Price Level Selection
- Image Title Selection

## 3. Covering The Event

- Tap-A-Face
- Selfie Registration
- Scanner Identification
- **Roster & Face Import**

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

	A	B	C	D	E	F
1	CellPhone	Email	FirstName	LastName	ImageName

5	4058200679	<a href="mailto:jack@can">jack@can</a>	Jack	Counts		24
6						
7						

- Tablet optional, but recommended
- The photographer can import a roster & faces to be used as facial recognition profiles for NowCandid events
- The photographer can also export info & faces from one NowCandid event to be imported into other NowCandid events
- The facial recognition profiles can be edited and updated by the photographer to keep them current over time
- Overall, this has similar functionality to our other workflows, but it does not require data collection from the subjects for the event

## 4. Post Event

## 4. Post Event

- Post-Event Marketing
- Event Reporting
- Event Management

- Marketing begins as soon as event images are uploaded and paired to contact data.
- Subjects will no longer receive marketing once they have made a purchase in the event.
- Subjects are “opting in” when they tap their face or selfie register, and can stop marketing at any time.
- Marketing corresponds with weekly price increases for the first 3 weeks following an event.
- All images are watermarked with scrolling and static copyright & proof watermarks (except for images in QuicPics).

- From your event management page, you can view and search events and open reports.
- The green button downloads the contact info you collected for the event as an excel sheet.
- The blue button displays live sales data for the event, breaking it down by each image folder.
- “Margin” is determining your actual margin of profit after accounting for your selected margin & the always 85% digital download margin.
- Emails are also sent to the main address on the account detailing each sale that occurs.

- Available on QuicPics Only
- Head to manage images, [select a folder](#), and the “Queue Download” option becomes available.
- Download all your event images with the event graphic on them to send to the event organizer when needed.
- Images with the graphic can be downloaded for free from the event link if they were not texted to an individual, but it is time consuming to do this for more than a few images.

- In your NowCandid event, select “Upload Additional Images” to manually add images to your event from your device without a tablet.
- The name of the folder will appear in the Event Sales & Statistics reporting window.
- Images added this way will run through facial recognition *if the event has not ended yet*.
- Once images match to facial recognition profiles within the event, they will appear in personal galleries and marketing will begin (*if it has not already started*).

- Images can also be manually uploaded to an event via the NowCandid Microsoft App.
- By checking the “Upload Images From SD Card” box when logging into your event, the app will upload *all* images from the SD card in the camera to the event.
- Ex: If only one tablet at an event but multiple shooters, swap SD cards at the end of the event, log out of your event, and log back in with the box checked to upload those images to the event as well.

- Candid Color Systems' support department will rectify production mistakes and reshoot when necessary at no cost to the photographer.
- The support department will also field calls in situations where customers reach out trying to find their images or asking questions about their order.
- CCS Support is linked to the end consumer multiple times throughout the retail experience and the photographer can direct questions to CCS as well.

- CCS collects Sales Tax on the retail site during checkout from the end consumer in locations where NowCandid has “Nexus” and distributes it.
  - *Long term, we'll be using a different system!*
- Please ensure that your business information (*in your account settings*) is accurate!
- What is remitted to the photographer is simply your cut of all sales and shipping keeping things simple, scalable, and efficient.

- Any sales received and produced by CCS' lab by Tuesday at midnight will be included in the week's payout.
- Statements are produced and emailed to your account email address Wednesday morning.
- Direct deposits post at the photographer's bank on Friday that same week.
- *If ACH or Stripe is not set up by the time a statement is prepared, sales will be remitted via a physical check directed to the name and address on your account.*

- Shooting in a high resolution or in RAW can cause issues when trying to upload images via tablet or manually via nowcandid.com's uploader.
- We recommend shooting in the S (small) JPEG size as it is plenty large enough to be produced as a digital download or physical product within our system.
